Listing of Claims:

1.-4. Cancelled

5. (Currently amended) ~~The assembly of claim 1,~~ A folding panel assembly,  
comprising:

only vertically-oriented frames, wherein first and second vertically-oriented  
frames are disposed on separate spaced apart partitions, the frames being  
stationary relative to the partitions and defining an opening; and

a plurality of folding panels, wherein a first panel is mounted to the first  
vertically-oriented frame and each successive panel is supported solely by its  
preceding panel and wherein the panels comprise a computer controlled display;

the folding panel assembly having an absence of any elements that would  
unite the folding panels to horizontal members that would span above and/or below  
the opening;

wherein, when the panels are folded together at the first frame, access is  
allowed through the opening, and when the panels are unfolded to extend across  
the opening to the second frame, access through the opening is blocked.

6.-10. (Cancelled)

11. (Currently amended) ~~The assembly of claim 7,~~ A folding panel assembly,  
comprising:

only vertically-oriented frames, wherein first and second vertically-oriented  
frames are disposed on separate spaced apart partitions, the frames defining an  
opening;

a first plurality of folding panels having a first panel supported by the first  
frame and each successive panel is supported solely by its preceding panel; and

a second plurality of folding panels having a first panel supported by the  
second frame and each successive panel is supported solely by its preceding  
panel, wherein the panels comprise a computer controlled display;

the folding panel assembly having an absence of any elements that would  
unite the folding panels to horizontal members that would span above and/or below  
the opening;

wherein, when the first and second plurality of panels are folded together at  
the frames, access is allowed through the opening, and when the first and second  
plurality of panels are unfolded to extend across the opening, each panel having a  
furthest extended panel coming together, access through the opening is blocked.
